NOTES

Personal Privacy

Under the *Government Information Public Access (GIPA) Act 2009*, Council is required to advise you that personal information being collected from you in relation to this matter will only be used for the lawful and proper functions of Council. Any such use will be in accordance with this Act.

Entry onto Land

You are advised that access to your property may be required by authorised Officers of Council in order for them to process your application and determine compliance with any consent that may be issued. By the submission of this application or by authorising its submission by another person/s it is accepted that you are giving approval of entry to your premises to Council staff pursuant to *Chapter 8, Part 2 of the Local Government Act 1993*. Access may be made in your absence. Should access be required, staff may contact you beforehand to make the necessary arrangements.

Ensure you have included the following with your application

- Completed and signed application form - including owner's consent form for online applications.
- A detailed site plan drawn to scale 1:200 or larger. The site plan must indicate location of tanks, draw off pipes for pump out systems and disposal areas with relevant dimensions from boundaries, dwellings and water courses for on-site disposal.
- Dwelling floor plan indicating number of bedrooms.
- Specification and NSW Health accreditation documents for all septic tanks and collection wells.
- Payment of prescribed fee for required approval/s to install and operate system of sewage management. Refer to fees and charges at lakemac.com.au

Please note: The assessment of this application will not commence until payment has been received.

In addition to the above, for installations of systems with on-site effluent disposal:

- A site report from a suitably qualified on site wastewater consultant with reference to the NSW Environmental Health Protection Guidelines 'On-site Sewerage Management for Single Households' and the *Australian/ New Zealand Standard - On site domestic wastewater management (AS/NZS 1547:2012)*.
- Plans and specifications detailing the design of the effluent disposal system. The type and sizing of the effluent distribution system shall be identified. Specifications must include scale drawings of location and spacing of any distribution and irrigation lines and any associated fittings including filters, flush valves, vacuum breakers, indexing valves and sprinklers.
