Plan

Typical layout 1:100

SECTION A

Scale: 1:50 (typical long section)

D2

For information only
Not for construction

Notes:
- Comply with all relevant Australian standards.
- Comply with RMS requirements and guidelines.
- Obtain OBD drawings prior to starting work.
- Ground truth possible conflict with underground and overhead services and structures prior to commencement of works.
- Confirm locations of subsurface drainage system prior to commencing tree pit works. Notify Councils project officer if no drainage system is available to connect into.
- Minimum tree installation size is 100L unless otherwise indicated in Conditions of Consent.
- Tree species substitution requires written consent from LMCC.
- Confirm compatibility between pit design and pavement design.
- Structural cell products must meet Councils requirements - refer to LSD-SPEC-01. The structural cell system proposed for use must be approved by Councils Project Officer prior to implementation of the works.

WORK TO FIGURED DIMENSIONS – DO NOT SCALE. DO NOT RELY ON THESE STANDARD DRAWINGS AS THE EQUIVALENT OF, OR SUBSTITUTE FOR, PROJECT-SPECIFIC DESIGN & ASSESSMENT BY A QUALIFIED PROFESSIONAL.
