Council has several key strategic plans, which help guide the direction of our city.

Council plans and policies are interconnected. The NSW Government’s Integrated Planning and Reporting framework allows councils to draw their various plans together, understand how they interact and get the most from their efforts by planning holistically and sustainably for the future.

The strategic goals are then turned into actions under the four-year **Delivery Program**. These are the principal activities undertaken by Council to implement the strategies identified in the Community Strategic Plan, within the resources available under the Resourcing Strategy. Supporting the Delivery Program is an annual **Operational Plan**.
